

Symposium

Gastroenterology: A Global Perspective

Wednesday 6 November 2024

Session 1: Let's talk about obesity

- Obesity: shared responsibility
- Medical management of obesity and metabolic dysfunction-associated steatotic liver disease (MASLD)
- Endoscopic and surgical management of obesity: will medications replace the need for these approaches?

Session 2: Treating to the target

- Targeting the microbiome from a gastroenterologist's perspective
- Sir Stanley Davidson Lecture (Keynote Lecture)

Session 3: Public health - global liver disease

- Diagnosis and management of alcohol-associated liver disease
- Viral hepatitis: an endangered species
- Hepatocellular carcinoma

Session 3: Endoscopy - back to basics

- Why quality matters in both upper and lower endoscopy
- Debate: Artificial intelligence (AI) in endoscopy will solve it all

OPENING LECTURE

Obesity: shared responsibility

Professor Sir Gregor Smith, Chief Medical Officer, Scotland

SIR STANLEY DAVIDSON LECTURE

The era of disease modification in inflammatory bowel disease has arrived, Professor David T. Rubin
